

Swedish design and functionality
in every step

Stair characteristics

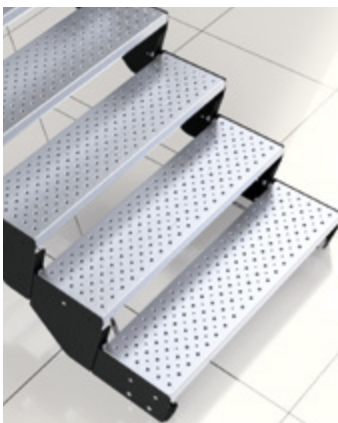

Thanks to the wide range of available options,
Asta stairs are an ideal solution for:

- single-family residential buildings
- split-level apartments
- private and service garages
- service buildings employing up to 10 people
- underground levels, technical rooms and non-usable attics
- indoor and outdoor use

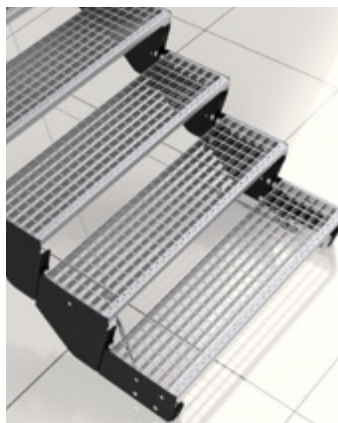

Steps filling

welded grid

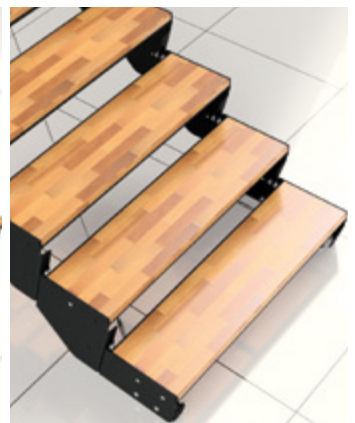

profiled grid

outdoor non-slip board
(larch)

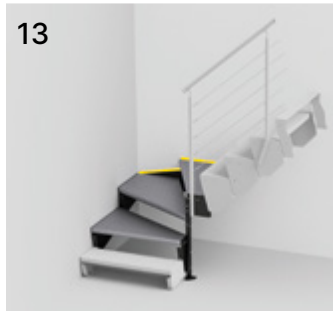

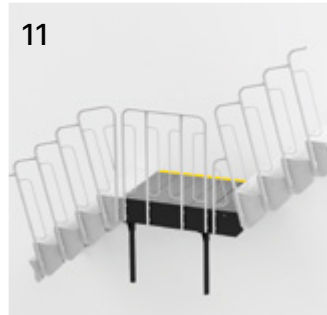

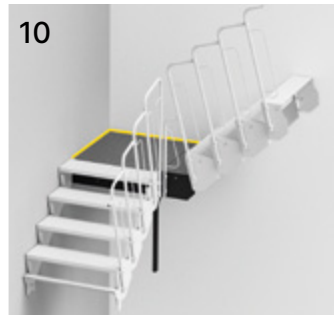

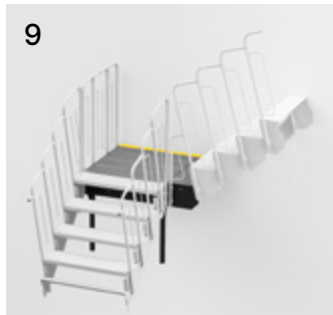

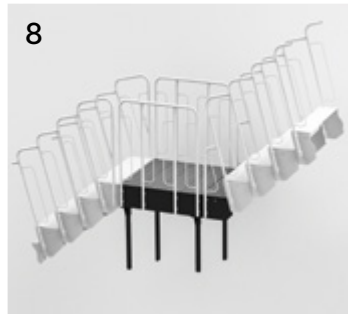

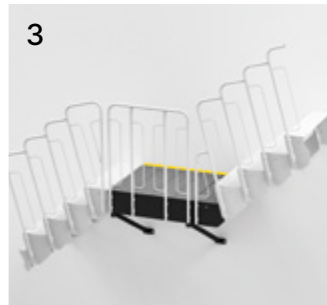

indoor laminated timber
(beech)

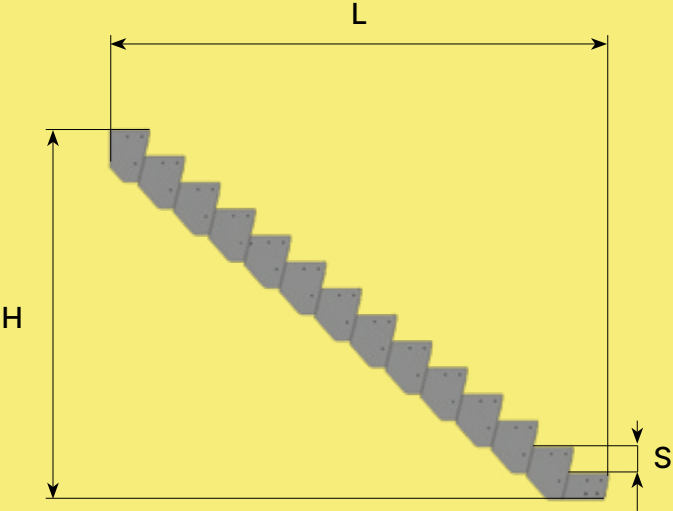

Landings and winders

A choice of landings and winders from sixteen variants makes it possible to create and build individual solutions tailored to the needs of the most demanding customers.

Available modules

H [mm]	L [mm]	Number of steps
